

Overview

(As of December 5, 2025) I'm a researcher working on using machine learning for code to develop state-of-the-art AI-assisted developer tools to make writing, fixing, and using software easier and more enjoyable.

Education

Academic Qualifications

- 2016-2021 **PhD in Computer Science**
Massachusetts Institute of Technology, Cambridge, MA
- 2013-2016 **Masters in Computer Science**
New York University: Courant Institute of Mathematical Sciences, NY, NY
GPA: 3.89, MS Research/Thesis Fellowship Award Fall 2015, funding work on A2Q (an order-aware optimizing query compiler for AQuery)
- 2007-2011 **Bachelor of Arts in Economics and Minor in German Studies**
University of Pennsylvania, Philadelphia, PA
GPA: 3.93, Phi Beta Kappa, Summa Cum Laude, Dean's List (08, 09, 10)

Industry Work Experience

- 07/2024 – **Staff Software Engineer** *DevAI Team, Google, Atlanta, GA*
current
 - Part of the DevAI research team, working on state-of-the-art machine-learning-based developer tooling. Currently focused on agentic software engineering, with applications to automated program repair and test generation. Our work is shipped internally at Google and we share our lessons externally through research papers at top SE venues.
- 06/2022 – **Senior Researcher** *PROSE Team, Microsoft, Remote*
05/2024
- 06/2021 – **Researcher** *PROSE Team, Microsoft, Remote*
06/2022
 - Working on program synthesis technologies for a variety of developer, data scientist, and end-user applications. A lot of my work focuses on developing and applying large language models to programming tasks, such as program repair and natural language to code synthesis. As part of my job, I also manage and mentor junior researchers through the PROSE research fellowship program.
- Summer 2020 **Intern** *Facebook AI Research, Facebook, Remote*
 - Worked with the SysML team at FAIR on a novel tensor compiler, writing C++ for JIT compilation, benchmarking against Halide/TVM
- Fall 2018 **Part-Time Research Visitor** *Big Code Team, Facebook, Remote*
 - Applied deep learning to identify and highlight core code functionality in early ML4Code models.
- Summer 2018 **Intern** *Software Engineering, Facebook, Boston*
 - Applied deep learning to code search and contributed to some of the earliest ML4Code models in this space.
- Summer 2015 **Intern** *Data Science, Cloudera, San Francisco*

2011 – 2014 **Full-Time Securitized Credit Research Associate** *Non-Agency Mortgages and US Housing*, Morgan Stanley, New York

Summer 2010 **Richard B. Fisher Scholar** *Fixed Income Generalist Sales and Fixed Income Credit Strategy*, Morgan Stanley, New York

Summer 2009 **Douglas Paul Scholar** *Investment Banking and Alternative Investments*, Morgan Stanley, New York

Academic Work Experience

Fall and Spring 2021 **Advanced Undergraduate Research Class TA**, MIT

2015 – 2016 **Graduate Course in Compiler Construction Grader**, NYU

Fall 2014 **Graduate Course in Programming Languages Teaching Assistant**, NYU

Language skills

- **Programming Languages:** Proficient in: Python, Javascript/Typescript, R, C#.
- **Natural Languages:** Native fluency in English and Spanish. Working proficiency in German.

Service

- **Program Committee:** ICSE SEIP 2026, OOPSLA 2026, LL4MCode@ICSE 2026
- **Program Committee:** ASE 2025, ICSE SEIP 2025, DL4C@NeurIPS 2025
- **Program Committee** ICSE 2024
- **Program Committee Table Representation Learning Workshop (at NeurIPS) 2023**
- **Program Committee Table Representation Learning Workshop (at NeurIPS) 2022**
- **Artifact Evaluation Committee OOPSLA 2020**
- **Artifact Evaluation Committee CAV 2020**
- **Artifact Evaluation Committee PPOPP 2018**

Mentoring/Advising

- Jennifer McCleary (MIT) MEng Thesis: pancreatic cancer risk modeling (Fall 2019 - January 2020)
- Alex Berg (MIT) Undergraduate research: pancreatic cancer risk modeling (Summer 2020)
- Thomas Xiong (MIT) MEng Thesis: pancreatic cancer risk modeling (Fall 2020 - Spring 2021)
- Lori Zhang (MIT) Undergraduate research: pancreatic cancer risk modeling (Summer 2020 - Spring 2021)
- Harshit Joshi (Microsoft): PROSE Research fellow, automated program repair (Fall 2021 to July 2023 – joining Stanford PhD program 2023)
- Mukul Singh (Microsoft): PROSE Research fellow, NL-to-Code (Spring 2022 to date)
- Abishai Ebenezer (Microsoft): PROSE Research fellow, automated program repair (Fall 2022 to July 2023)
- Jialu Zhang (Yale/Microsoft): Summer intern in the PROSE team, working on automated program repair (Summer 2022). Part of thesis committee.
